

TECNICA DE EXPLORACION

DOCENTE:CARMELO JIMENEZ CARDENAS

PROYECCION P.A

OPCION A.P

PROYECCION LATERAL IZDA/ DER.

PROYECCION OBLICUA.

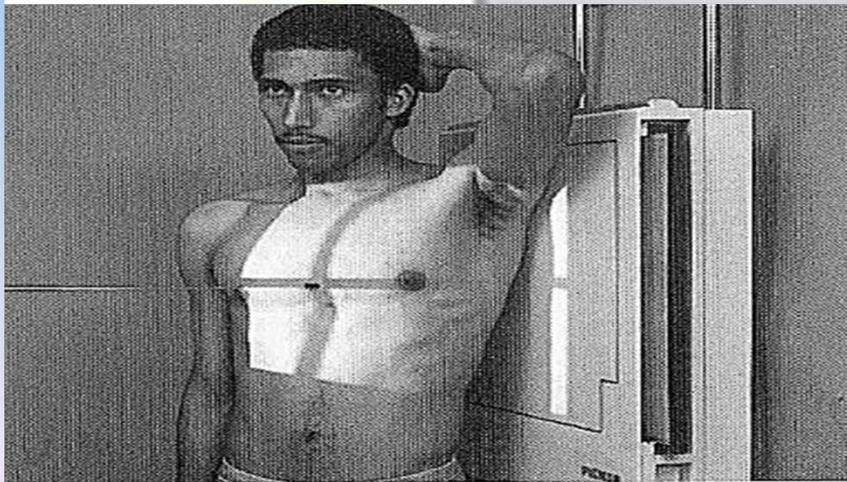

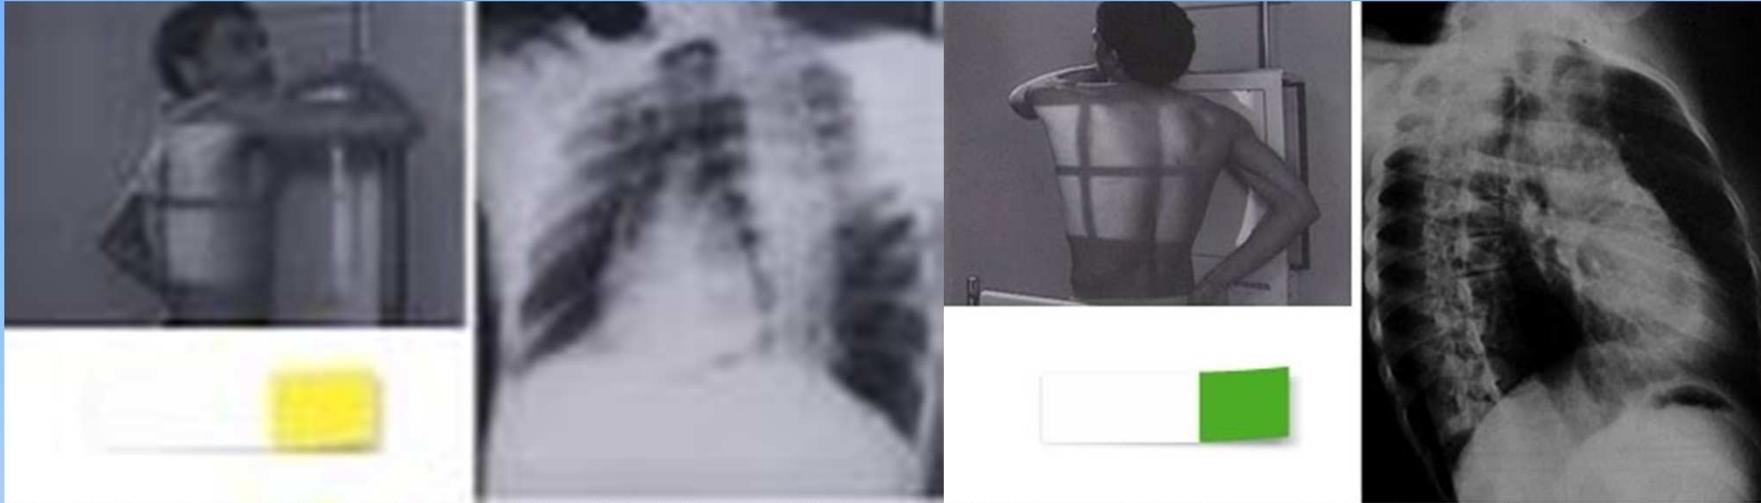

Fig. 9-48. Proyección oblicua AP de las costillas en bipedestación. OPI.

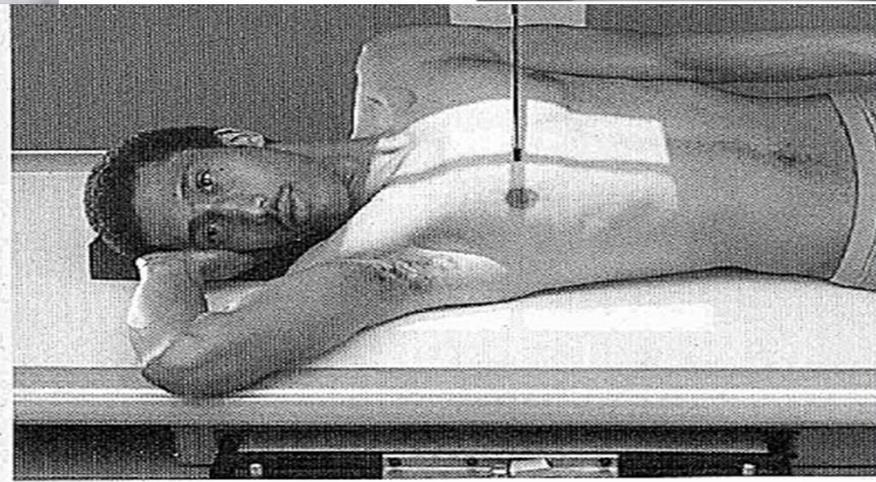

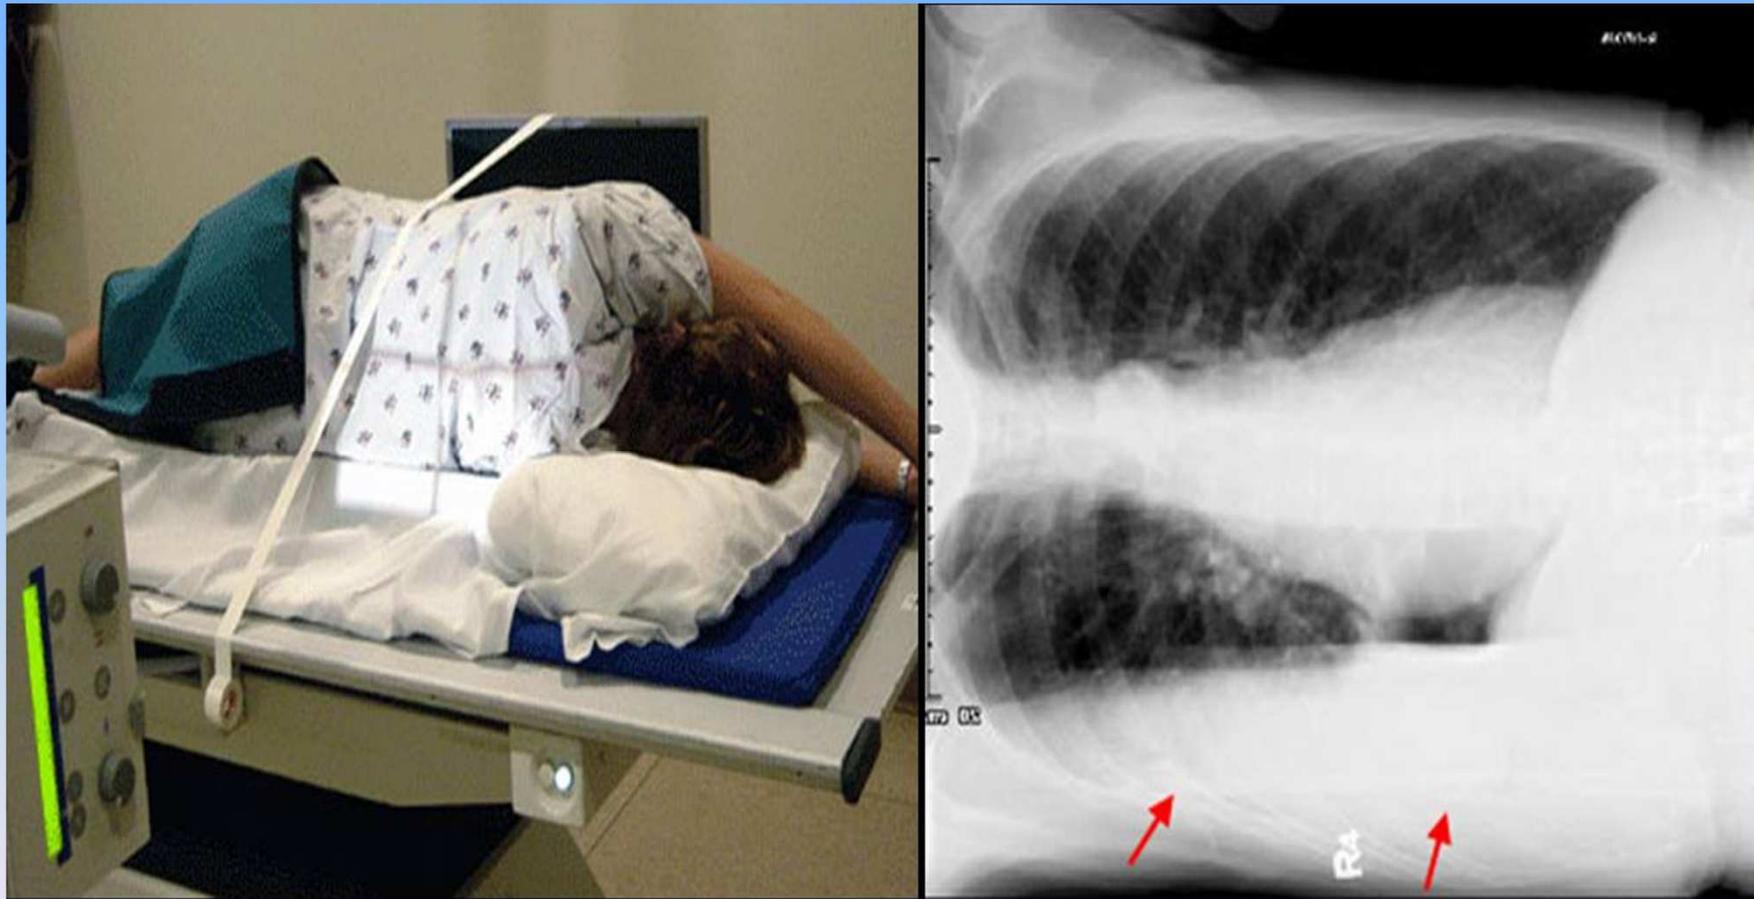

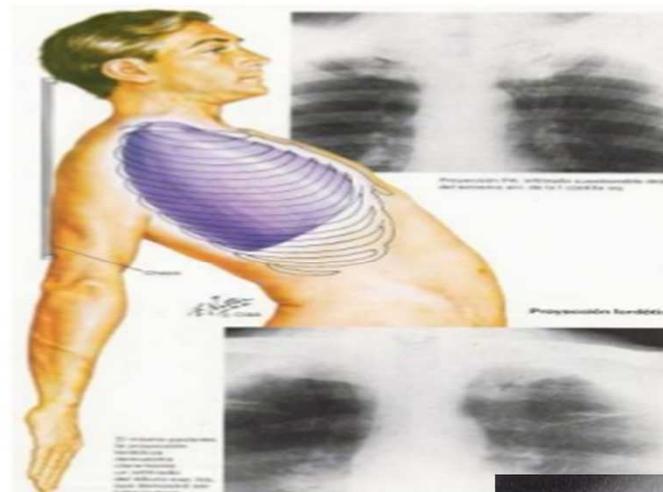

Fig. 9-49. Proyección AP oblicua en posición de decúbito de las costillas. OPD.

PROYECCION DECUBITO LATERAL.

Radiografía Lordótica apical

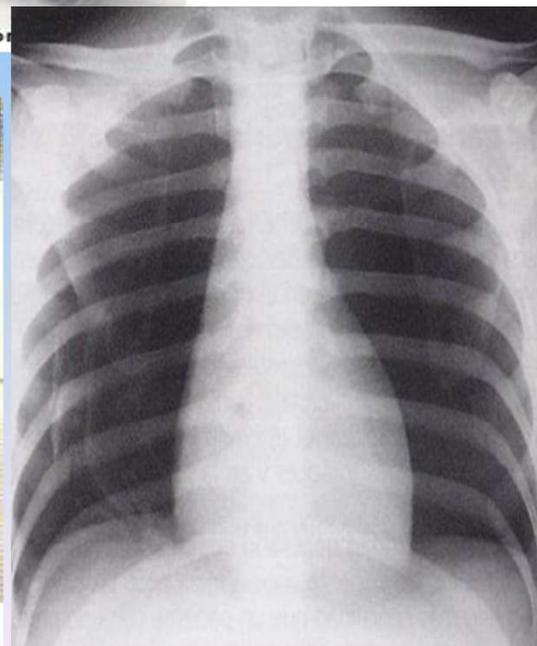

Para estudio de los vértices pulmonares.

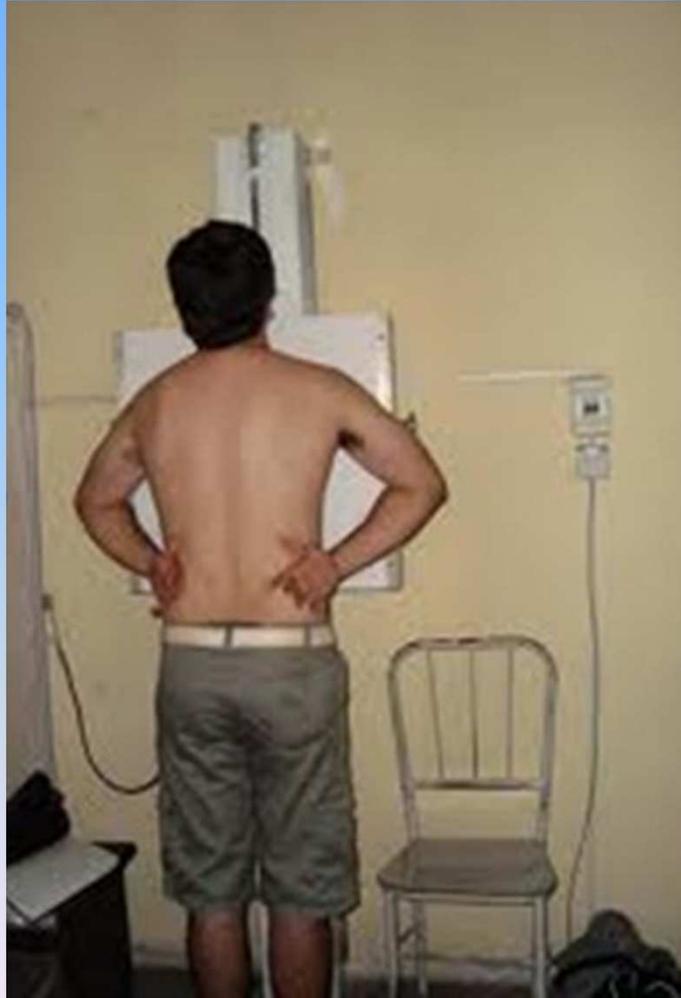

Vargas-Romero J. Radiología de Tórax

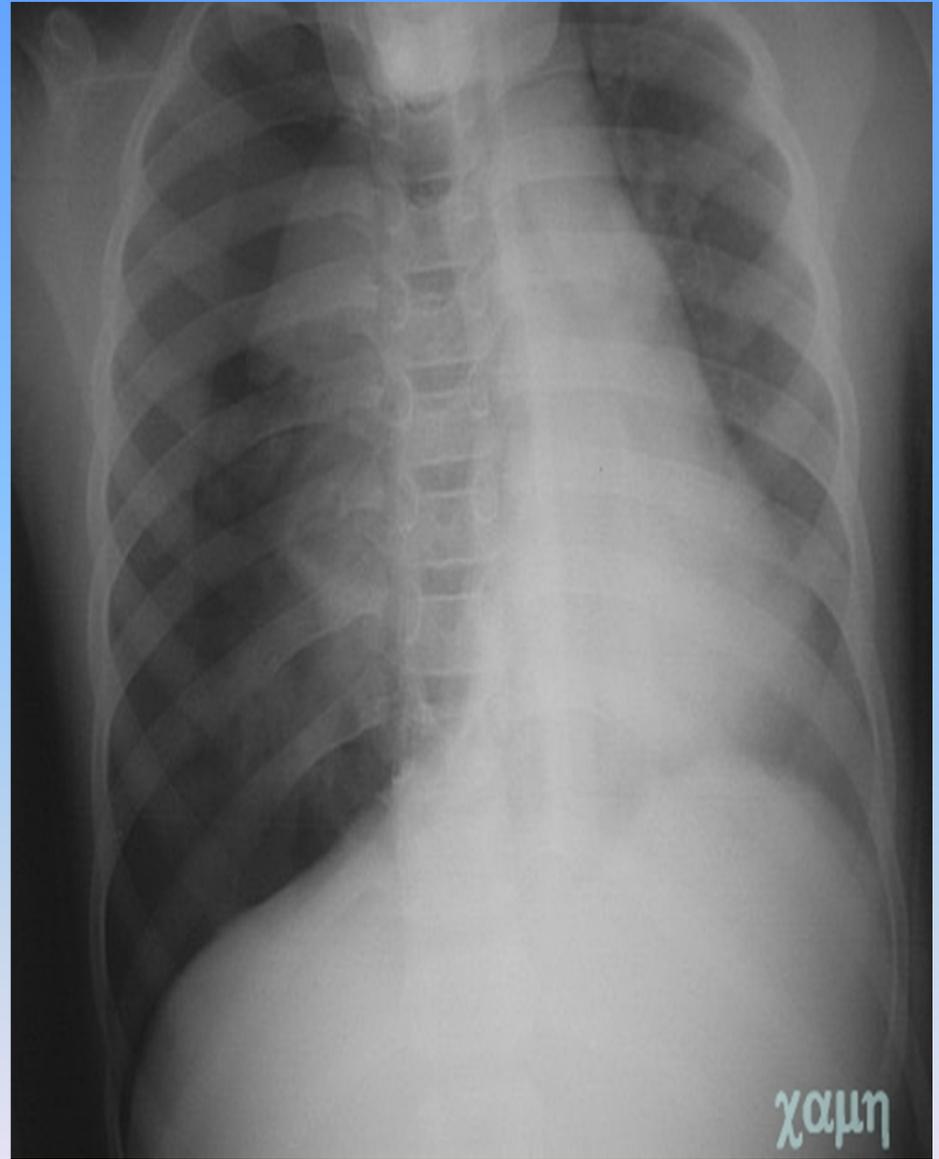

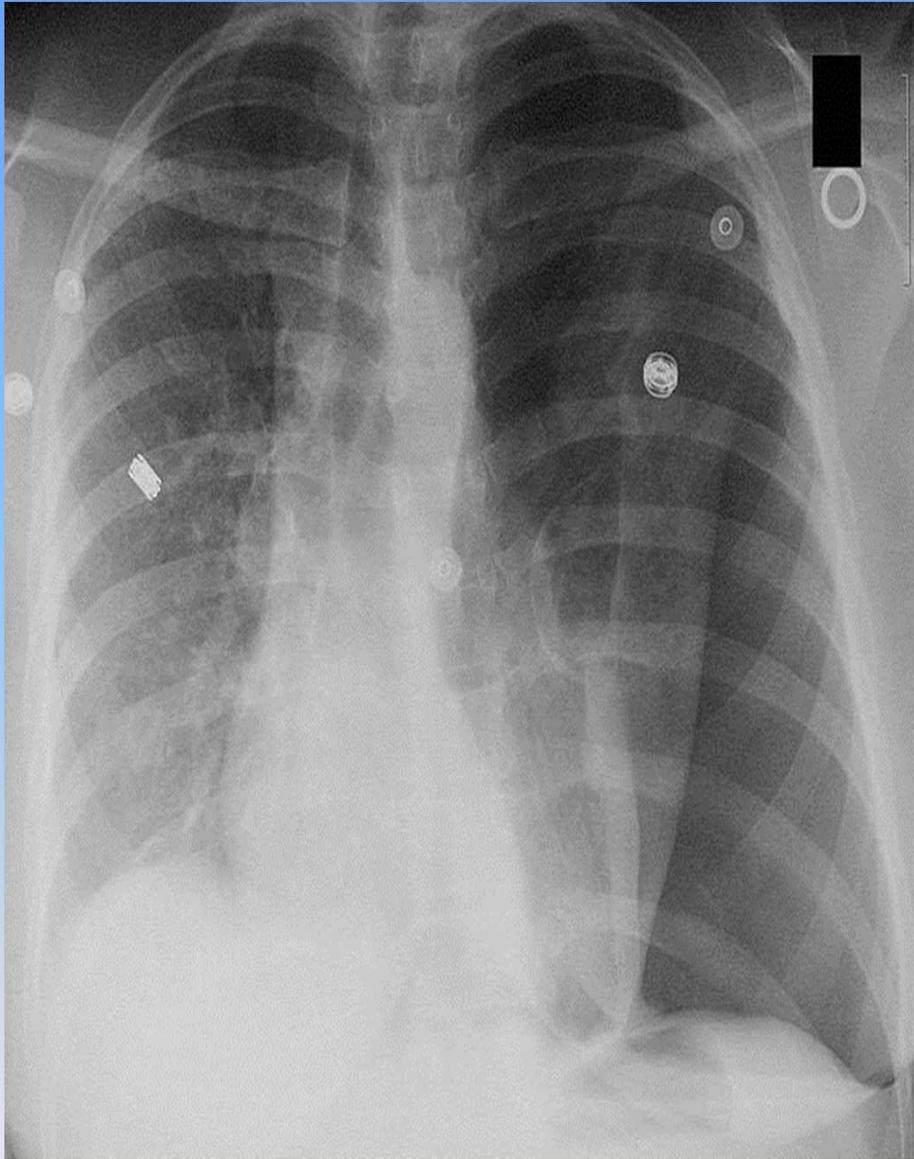

Fig. 2.73 AP lordótica.

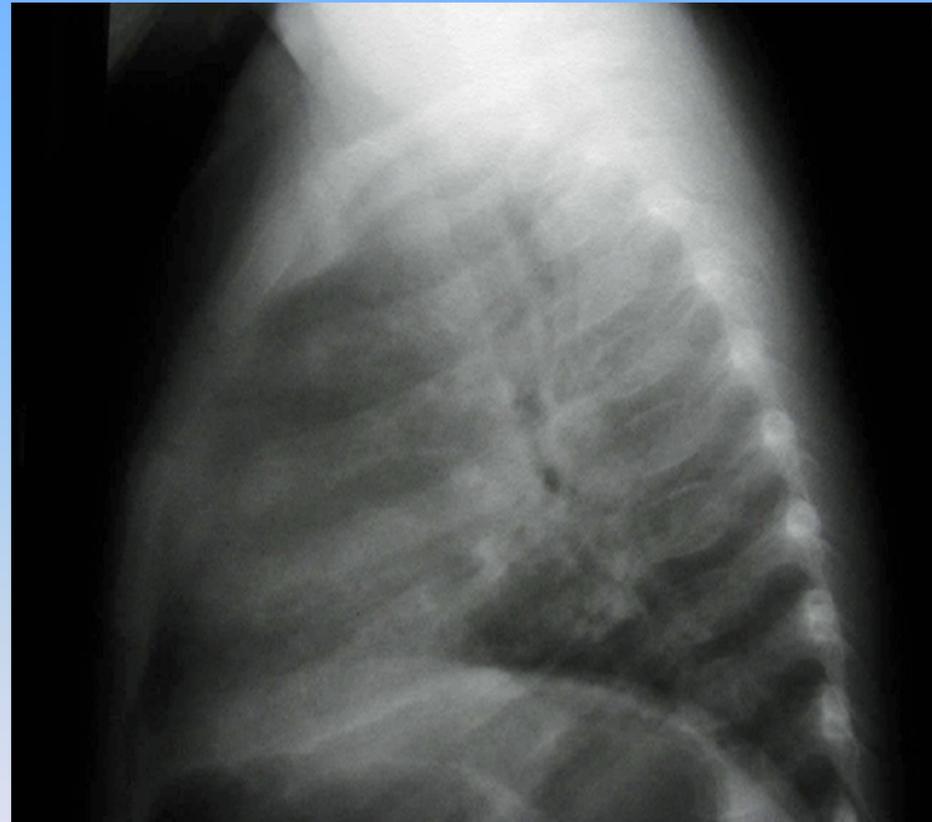

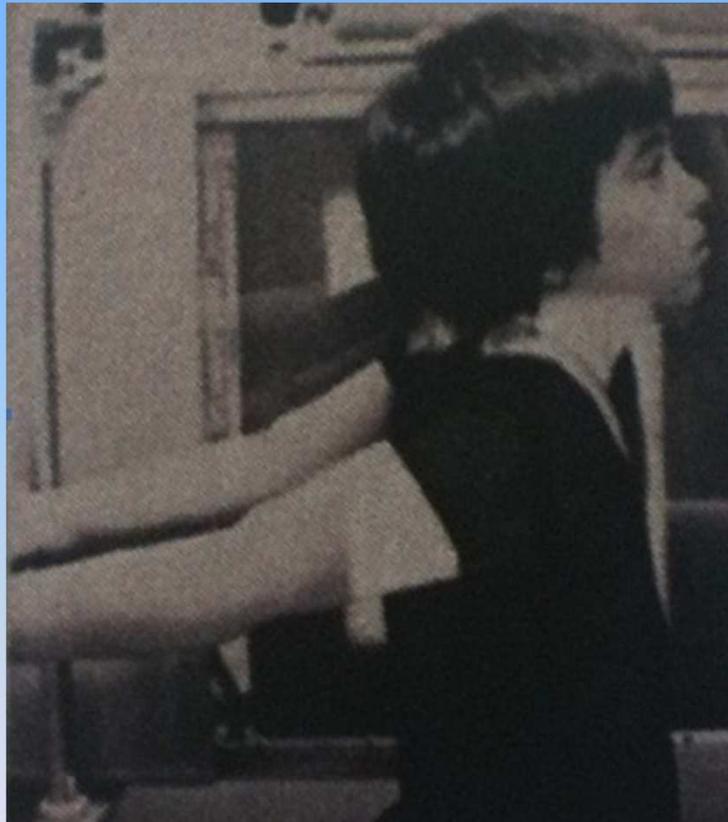

PROYECCION TORAX EN EXPIRACION.

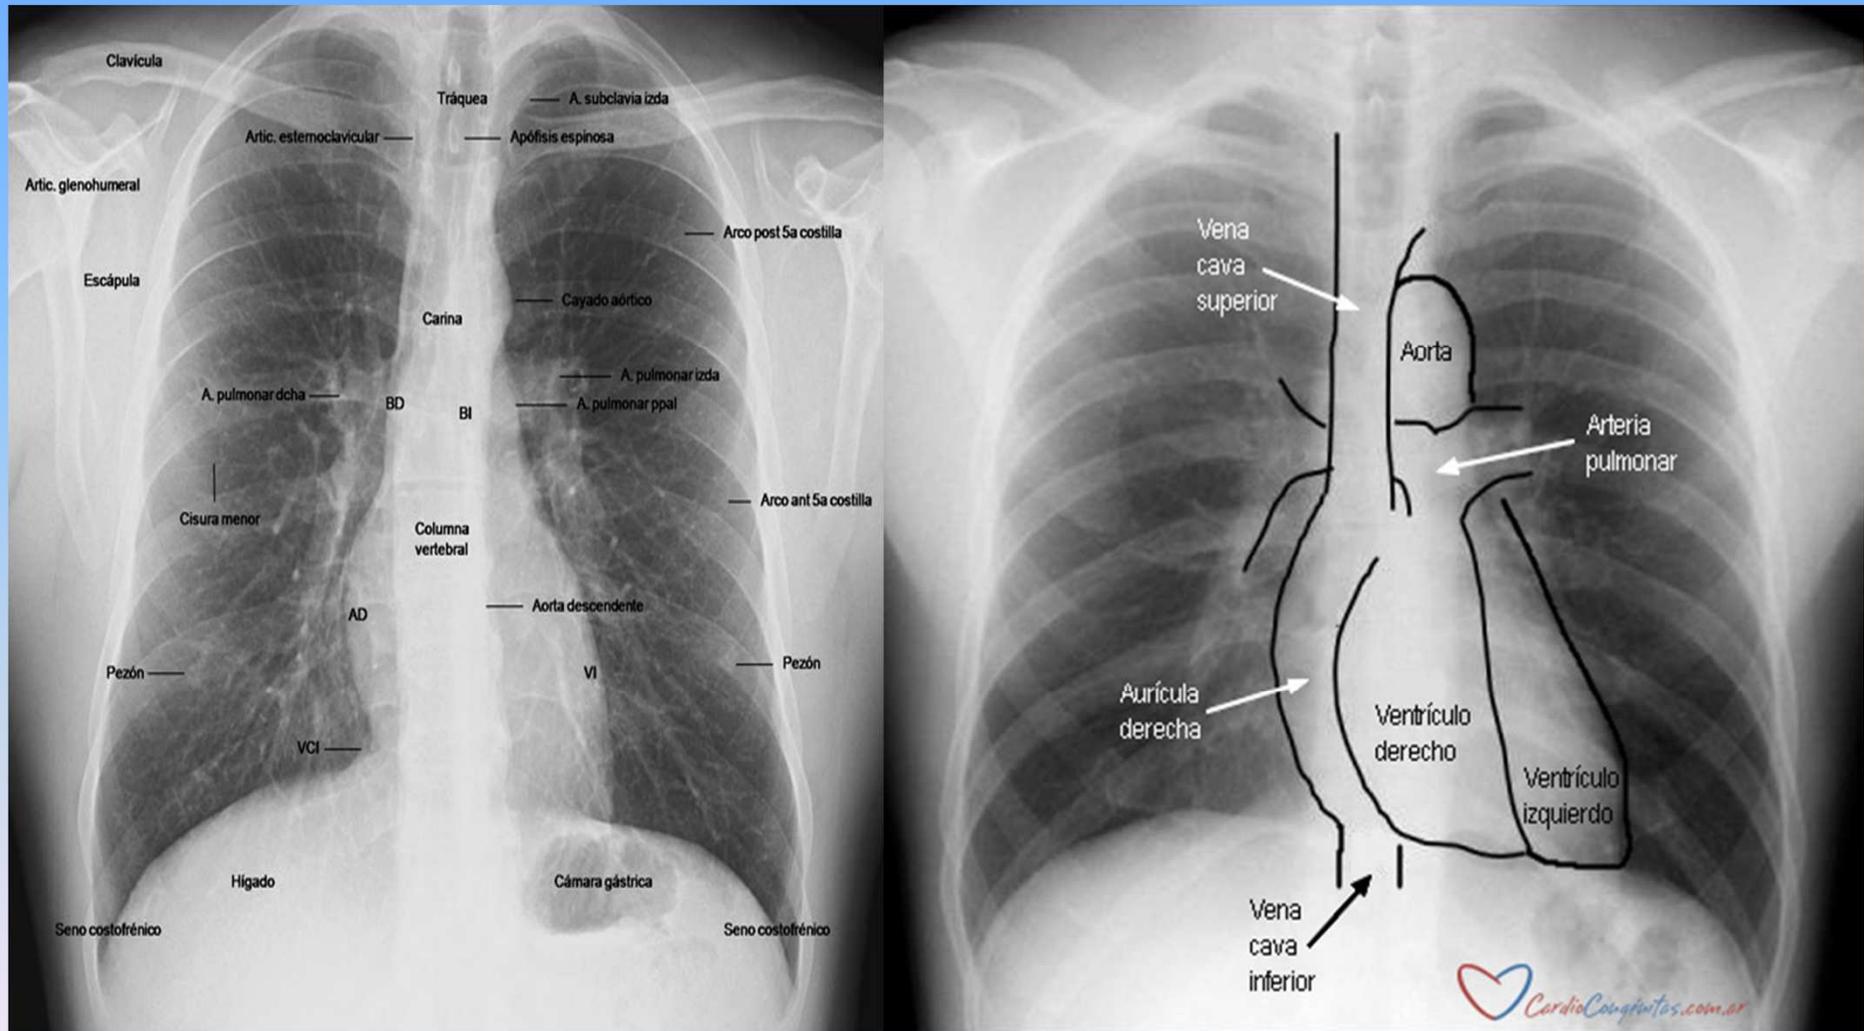

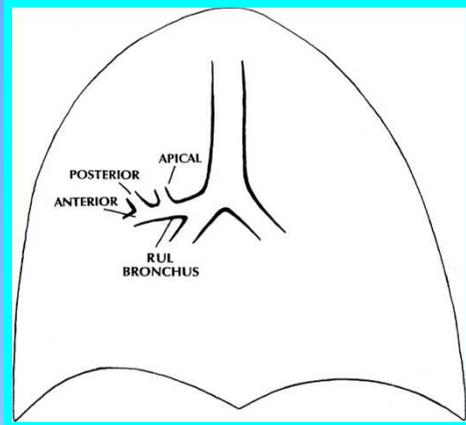

PROYECCION TORAX ENDOLATERAL.

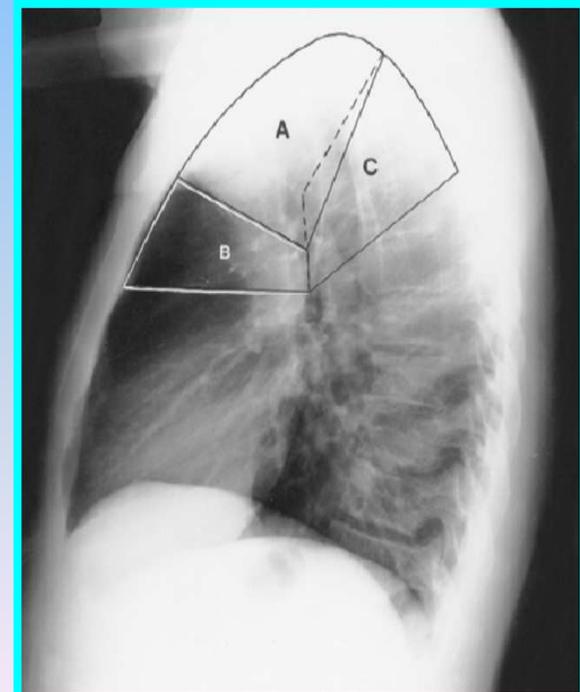

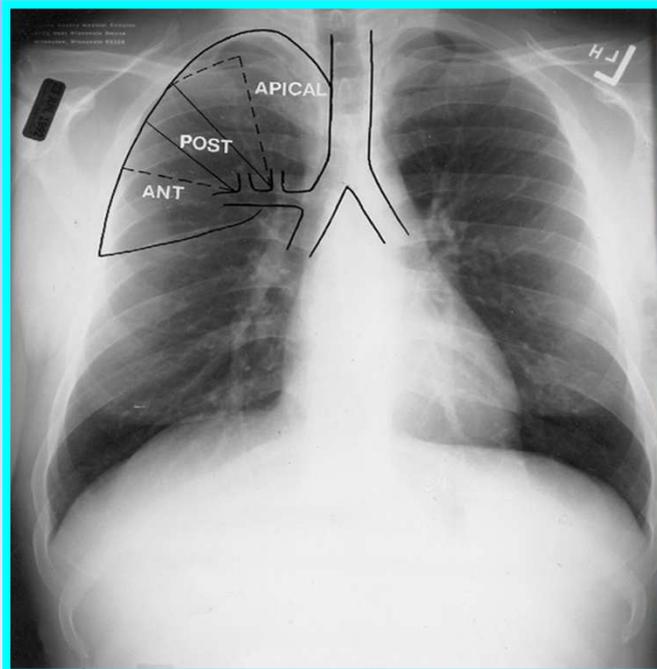

GENERALIDADES

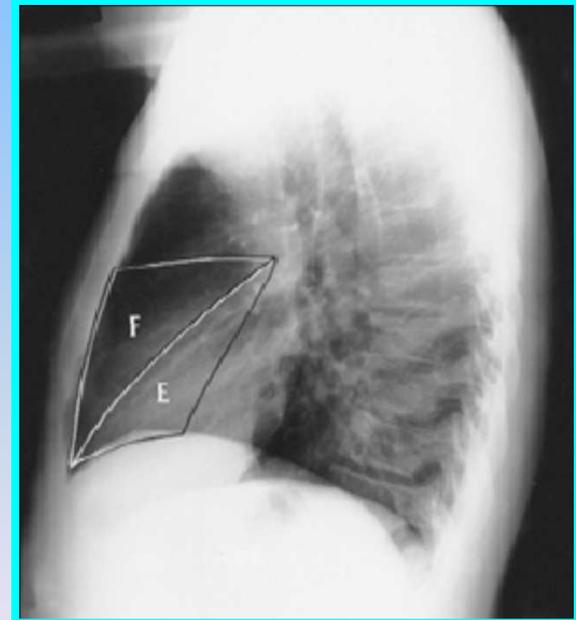

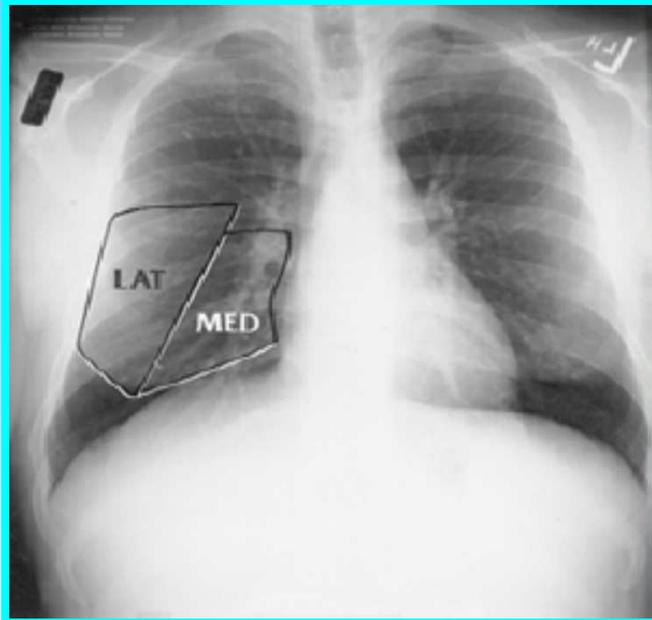

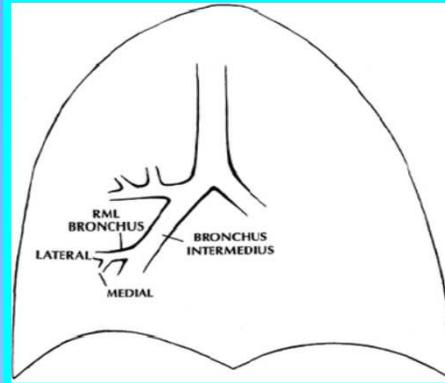

LOBULO SUPERIOR DERECHO

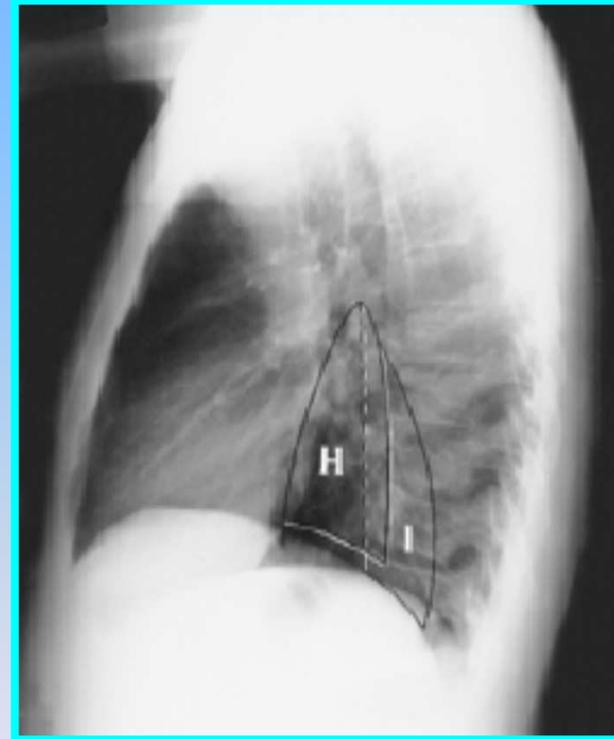

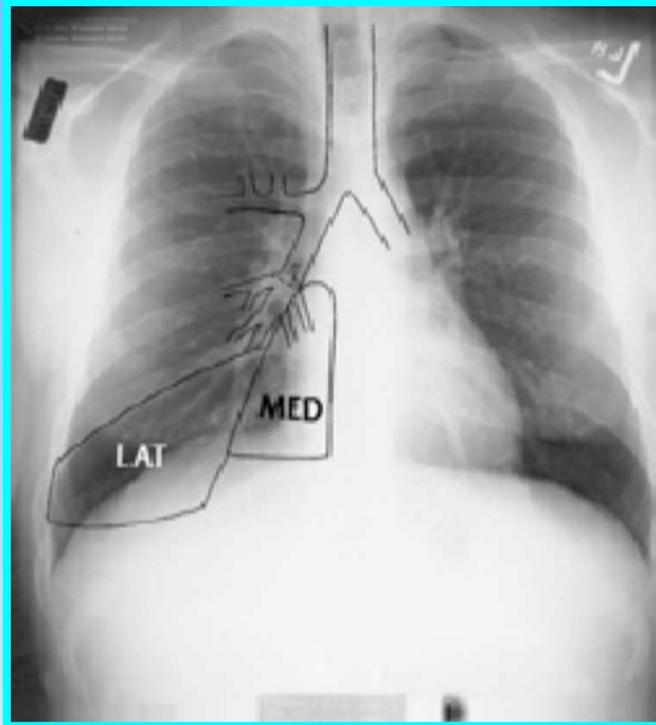

Apical, desde la primera costilla hasta donde inicia el posterior. el anterior su limite inferior es la cisura menor.

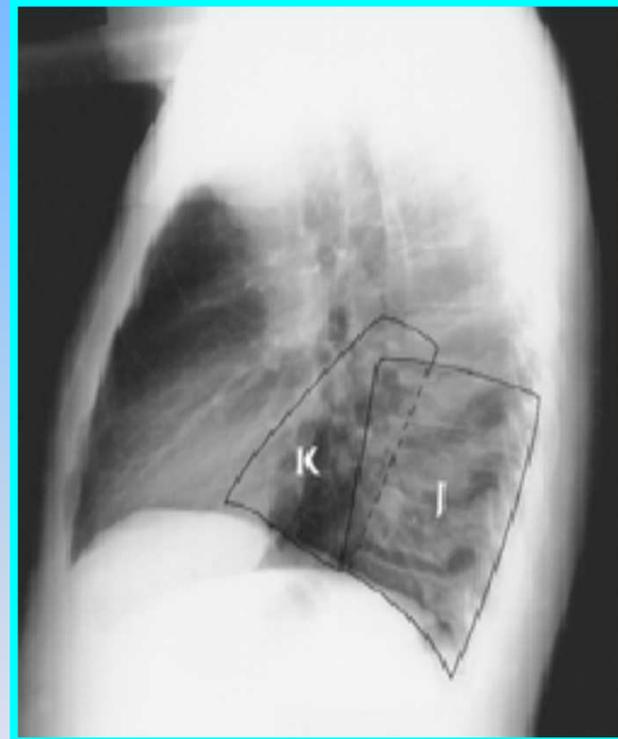

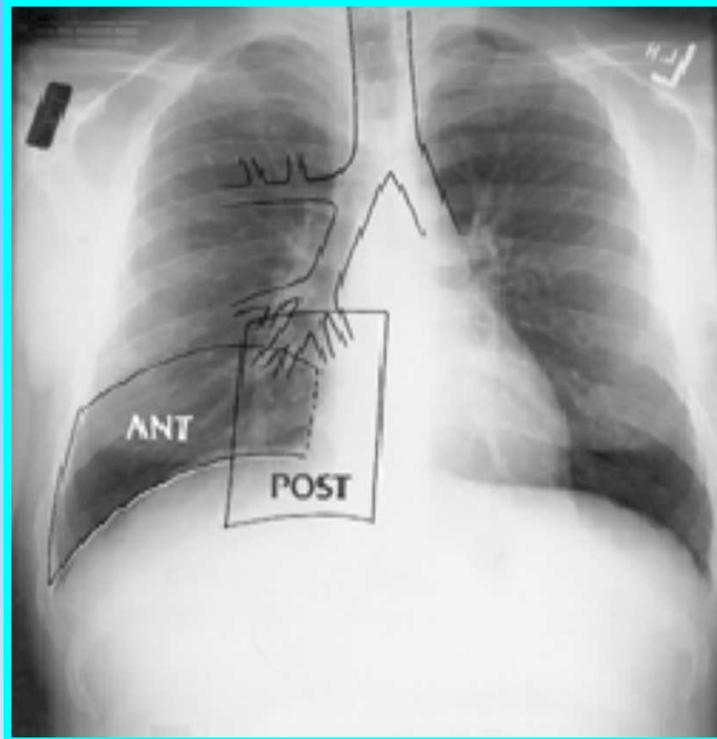

LOBULO MEDIO

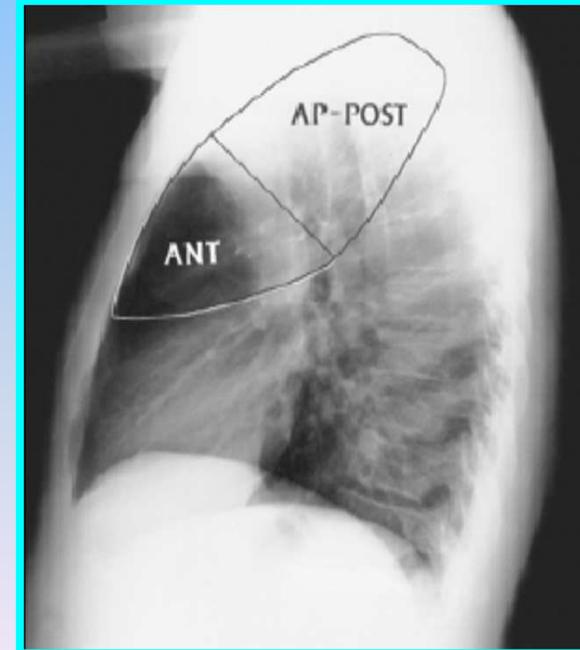

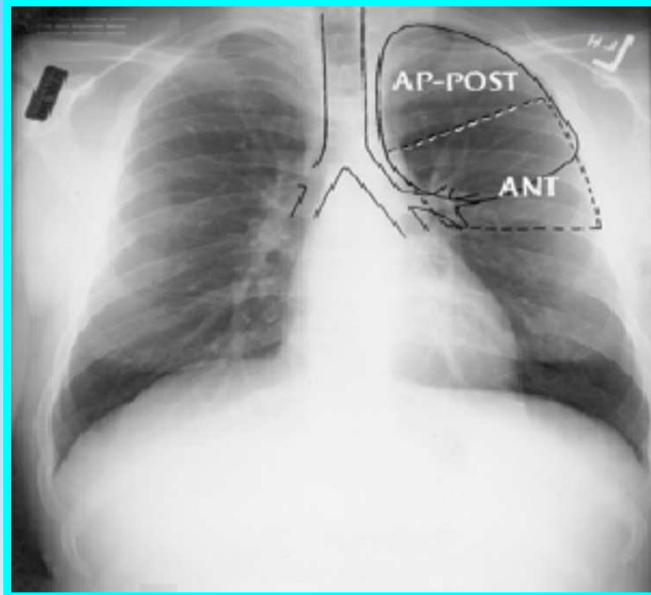

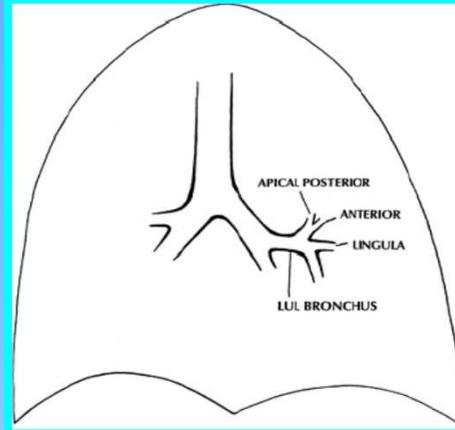

LOBULO INFERIOR DERECHO

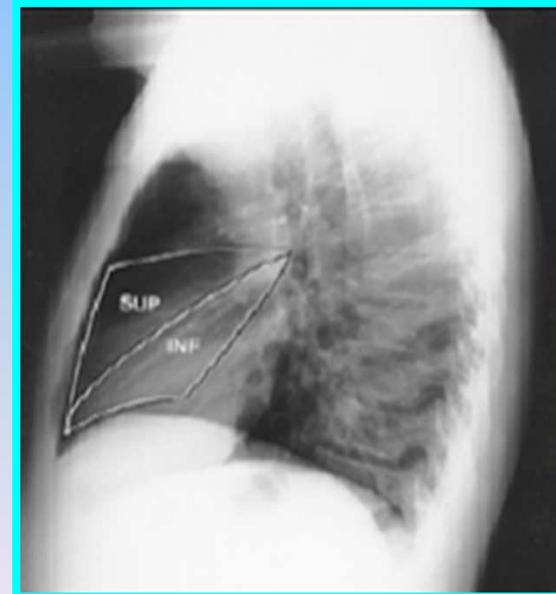

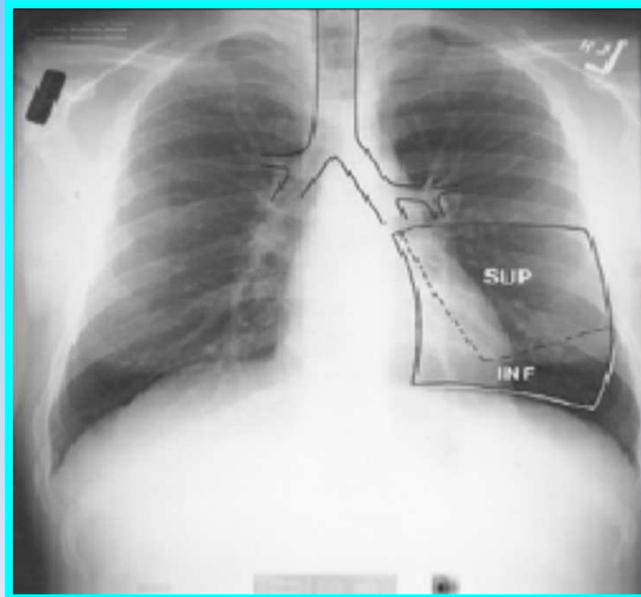

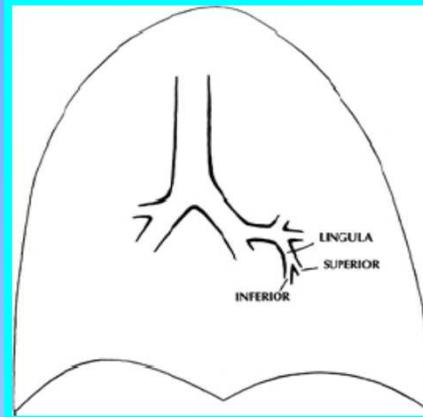

LOBULO INFERIOR DERECHO

LOBULO SUPERIOR IZQUIERDO

LOBULO INFERIOR IZQUIERDO

Segmentos pulmonares

Lóbulo	Pulmón derecho	Pulmón izquierdo
Superior (LS)	Apical	Apicoposterior
	Posterior	
	Anterior	Anterior
Medio (LM)	Lateral	Lingular superior
	Medial	Lingular inferior
Inferior (LI)	Superior	Superior
	Basal medial	Basal medial
	Basal anterior	Basal anterior
	Basal lateral	Basal lateral
	Basal posterior	Basal posterior

SIGNO DE LA SILUETA

ESTRUCTURAS ANTERIORES:

BORDE CARDIACO DER E

IZD.(LMDY LINGULAR)

AORTA ASCENDENTE(LSD)

ESTRUCTURAS POSTERIORES:

BOTON AORTICO(LSI.

AORTA DESCENDENT: LIDeLII(
SEG.SUP.)
